III Funding conditions

Acceptance of the funding obliges the scholarship-holder to,

- enrol continuously at the Paderborn University during the funding period and to provide the Selection Committees Office with appropriate proof of this,
- comply with the guidelines and procedures for safeguarding good scientific practice at the Paderborn University,

- comply with the guidelines on stating affiliations in scientific publications at the Paderborn University,
- provide the acknowledgement of the dissertation with a reference to the support by the graduate scholarship of the Paderborn University,
- send a digital copy of the dissertation to the Selection Committee after completion of the doctoral procedure,
- inform the Selection Committee of the overall grade of the doctoral degree for statistical purposes,
- and to inform it if a career perspective has resulted from the supported doctoral thesis.

IV Type of Funding

Scholarships are provided in the form of grants. The approval of the grant is subject to the proviso that appropriate budget funds (according to point I paragraph 3) are available for the grant period. There is no entitlement to these grants or scholarships.

1.) Scholarship

A scholarship may be granted to women applicants who demonstrate academic performance and exam results that are far above average requirements and who are preparing for a doctoral degree.

As a rule, the period between graduation with a university degree and the commencement of the grant/scholarship funding should not exceed 15 months (**exceptions must be explained in detail**).

2.) Other funding

A scholarship **cannot** be awarded if the scholarship applicant/holder receives or has received other funding from public sector or publicly-funded private institutions for the same purpose and for the same period.

3.) Gainful Employment

A scholarship **cannot** be granted if the scholarship holder wishes to pursue gainful employment at Paderborn University parallel to the scholarship.

Gainful employment is permissible for an annual average of 8 hours per week in addition to the doctoral scholarship, if this is carried out outside the Paderborn University.

Gainful employment must be reported to the office of the Selection Committee without being asked in accordance with Section VII. The progress of the doctoral project must not be negatively influenced by the gainful employment.

V Duration of Funding

With regard to the duration of the funding, a **scholarship generally lasts three years**.

A holder of a scholarship may extend the maximum funding period by up to 12 months if she lives with her child/children in a household at the time the scholarship period commences and if at least one child is under 12 years of age. This also applies if the first child is born during the scholarship period.

Extension requests must be submitted to the Selection Committee in good time before the end of the funding period.

The scholarship can be interrupted exceptionally and once for a maximum of 1 year within the funding phase. This requires a justified application to the Selection Committee. After approval of the application by the Selection Committee, the period of approval from the respective notice of approval is suspended for the specified interruption period. No payment of the scholarship will be made for the approved interruption period. Further academic qualification and the continuation of the doctorate must be demonstrably pursued. A delayed start differing from the grant period is not possible.

VI Duration of Approval Period

Scholarships are approved and granted for three years.

Scholarships can be approved and granted for a shorter period of time if the funding purpose can be achieved during this shorter period or if a transition to another form of funding is expected to take place after this shorter period.

VII Obligations to notify the Paderborn University

Changes in circumstances that are relevant to the award of the scholarship or concerning statements or explanations that were made in connection with the application must be reported to the Paderborn University immediately.

At the time of opening the doctoral procedure, the scholarship rate can be paid out for the last time, after which the entitlement to further funding expires. The scholarship holder must notify the Selection Committee in good time (two months before the opening).

If the scholarship holder discontinues her academic project, she will inform the Paderborn University immediately.

VIII Reporting Obligations

1.) Scholarship

Prior to the end of the first funding year (after 10 months) and the second funding year (after 22 months), the scholarship holder must submit a progress report on her work during the scholarship period and describe the results of the project. The supervisor of the project submits a progress report on the scholarship holder's progress and achievements to date.

On the basis of the reports and expert reports submitted by the supervisors, the Selection Committee assesses the progress of the doctoral theses every year and checks whether the scientific achievements so far justify further funding.

2.) Expiration of the entire funding period

No later than 6 months after the end of the grant period, the scholarship holder must inform the Selection Committee whether and when the dissertation was submitted.

If, in an exceptional case, the scholarship holder is unable to submit the dissertation by the end of the grant period, she must explain the reasons, describe the status of the dissertation thus far and outline its intended progress in a work report.

If the grant/scholarship is not extended or if the scholarship holder does not complete her dissertation after the end of the approved extension period, the scholarship holder shall be obligated to report annually, at a date to be determined, on the status of the doctoral project and dissertation until the dissertation has been completed, but at a minimum before three years have passed after the funding period.

If the doctoral project and dissertation are not completed within three years after the end of the funding period, the Selection Committee will decide on the further course of action in one of its meetings by discussing it as a separate agenda item.

IX Amount of Scholarship

A scholarship is granted in the amount of **3.000 Euro** per month.

Scholarships are provided in the form of grants. There is no entitlement to these scholarships.

Scholarship holders must notify the Selection Committee of any benefits they receive under the Federal Parental Allowance and Parental Leave Act (Bundeselterngeld- und Elternzeitgesetz) and the state parental allowance laws without being requested to do so. Benefits under the Federal Parental Allowance and Parental Leave Act are deducted from the basic monthly scholarship amount.

Any taxes related to the grant/scholarship are the responsibility of the scholarship holder. The scholarship holder is aware that the grant/scholarship provider is required to inform the tax authorities in accordance with the German Transaction Reporting Regulations (Mitteilungsverordnung, in its currently valid version).

X Revocation of the Grant/Scholarship Award Notice

- 1) Paderborn University may revoke the decision on the granting of a scholarship in whole or in part, also with effect for the past. This applies in particular if the scholarship holder

 - h.) has received other funding within the meaning of IV, section 2.) during the funding period;
 - i.) has pursued gainful employment during the funding period which is not permissible under IV. 3);
- 2) The decision to award a scholarship may be revoked in whole or in part with effect for the future if the Selection Committee's assessment pursuant to IV, Paragraph 1.) does not justify continued funding.
 - 3) If the scholarship holder discontinues her academic project, the award shall be revoked as of the date of discontinuation.
 - 4) In all other respects, the grounds for revocation set out in Article 8 of the Framework Guidelines on Grant Awards at Paderborn University and in § 49 VwVfG NRW shall apply.
